Simulation and EGSE facilities for Space Programmes (SESP2010)

Tuesday, 28 September 2010

EGSE Architecture - Newton Conference Centre (14:00 - 17:00)

time	[id] title	presenter
14:00	[15] EGSE-Lite: A Light Weight EGSE/Simulation environment for LEON based Satellite Subsystem & Payload Equipment	
14:30	[16] EGSE Architecture and the New Generation of Software Technologies	
15:00	[17] Future Proofing EGSE - Is Virtualization the Answer?	
15:30	Coffee Break	
16:00	[18] Best Practices for Architecting COTS-Based EGSE	
16:30	[19] Galileo1 FOC Payload Systems - Challenges in Design, MAIT and Schedule
