BB# 24
HT100 Deorbiting (Auxiliary) System
SITAEL

24/05/2016

Description of proposed technology Building Block

- Baseline + design options
- Trade offs to be performed

One slide max!

Description of proposed technology Building Block

- Applicability range (satellite class and target orbits in LEO)
- Discussion of the system level impacts (risk, mass budget, power budget and link budget)

One slide max!

- Main technical challenges during development

One slide max!
