

AUTOCOGEQ

ESA UNCLASSIFIED - For Official Use

European Space Agency

AUTOCOGEQ

Preparation for the Qualification of Auto-Code Generated from Simulink Models.

- TRP, 250 k€.
- Contract 4000114729/15/NL/RA
- 18 →20 Months.
- GMV Prime Contractor
- Technical Officer: Manrico Fedi Casas (TEC-QQS). Support of TEC-SWE, TEC-SAG.
- Objective:
 - Definition of a detailed lifecycle process, methodology, modeling rules and set of tools and procedures that optimise the development of model-based design spacecraft subsystems with auto-code for direct integration in on-board mission critical (Cat. B) flight software.
