

ESA & CNES Final Presentations : Space Environments and Radiation Effects on EEE components

Monday, 6 March 2017 - Thursday, 9 March 2017

ESA/ESTEC

Scientific Programme

Mon 6 - Tue 7 March, 2017 will be dedicated to Space Environments activities on radiation monitors development and space environment modelling, analysis and simulation tools.

Wed 8 -Thu 9 March, 2017 will address subjects such as EEE Component irradiation characterization and radiation harness assurance tools and guidelines.
