

A new network paradigm for the On-Board Reference Architecture (OSRA-Net)

Christophe Honvault

TEC/SWE

A new network paradigm for the On-Board Reference Architecture (OSRA-Net)

- *Budget: 400K€, Program: TRP*
- *Duration: 12 months*
- *Team: TAS-F (FR), GMV (SP), TELETEL (GR), Bright Ascension (UK)*
- *Main Objectives:*
 1. Analyze all communication on-board a spacecraft;
 2. Propose User Requirement Document related to on-board communications;
 3. Verify requirement on a demonstrator.
