ESA-AF Upgrade for Compatibility with MagicDraw and Eclipse Platforms

- *Budget: 75K, Program: INFRA*
- *Duration: 18 months + 12 months maintenance*
- *Prime: Telespazio Vega Deutschland GmbH*
- *Main Objectives:*
 1. The development of a form-based modelling environment;
 2. The development of a space based SoS components library;
 3. The definition of EA modelling guidelines and process capture, and the development of demos and E2E examples, including video tutorials
