

Final Presentation: New Modelling Methods in Simulation, Verification and Validation

12-12-2017

TO: Borja Garcia Gutierrez & Quirien Wijnands

New Modelling Methods in Simulation, Verification and Validation

- **400 keuro in TRP Programme**

- Started January 22nd 2015
- Finalized August 17th 2017

Consortium

- Prime: Telespazio Vega Deutschland GmbH
- Sub-Contractor: Airbus Defence & Space GmbH
- Sub-Contractor: ScopeSet Technology Deutschland GmbH

Objectives

- Definition of a Methodology in order to capture and define the Simulation-specific part of the System Database for the creation of a Simulation Model from a real world "system"
 - Allow for tracing/capturing of Domain Specific (model) data

Main Tasks:

1. Modelling and Model Integration Methodologies
2. Demonstrator
