

7th International Conference on Astrodynamics Tools and Techniques (ICATT)

Friday 09 November 2018

Optimization and Dynamics #1 - Single 107 (09:30-10:30)

-Conveners: Christina Jetzschmann; Stijn Lemmens; Ruairaidh Mackenzie

time	[id] title	presenter
09:30	[2] Comparison of different optimization methods to construct an acquisition plan finding the best compromise between calculation time and algorithm performance	Dr RENAUDIE, Cécile
10:00	[13] Adaptive Pareto Front Sampling Based on Parametric Sensitivity Analysis in a Bi-Objective Setting	BERGER, Arne
