European Workshop on On-Board Data Processing

Wrap-Up

A Success before it even started ...

- Initially planned as small event with up to 50 people
- Very positive response that exceeded our expectations
- There is a lot of potential for the future, but let's start with a short review...

Event recount

- Over 150 participants from 74 different organisations
 - agencies: 18 %; industry: 57 %; research + higher ed.: 22 %; other: 2 %
- 3 days with 7 sessions
 - Future Needs and Requirements for On-Board Data Processing
 - On-Board Data Processing Systems and Architectures
 - Deep Learning in On-Board Systems
 - Data Reduction and Compression
 - Devices and IP for On-Board Data Processing
 - On-Board Processing Algorithms
 - Poster Session and Exhibit
- 2 round table discussions
 - Future Needs and Requirements for On-Board Data Processing
 - Deep Learning in On-Board Systems
- · Slides and papers will be published on the website

- ... and for sure not the last one!
- The format will evolve and become even better
- For this we would love to here more of your feedback
