Title of Presentation

- *Budget:* 129969€
- *Duration:* 12 months
- *Prime:* Deutsches Zentrum Für Luft- und Raumfahrt (DLR)
- *Main Objectives:*
 1. Analyze applicability of “traditional” SW-PA aspects for MBSE and propose adaptations to existing quality model (metrication).
 2. Develop MBSE Demonstrator (PUS implementation) using the TASTE Framework and analyze the demonstrator using the adapted quality model.
 3. Evaluate the efficiency of the adapted quality model and derive recommendations for ECCS-Q-HBs.
