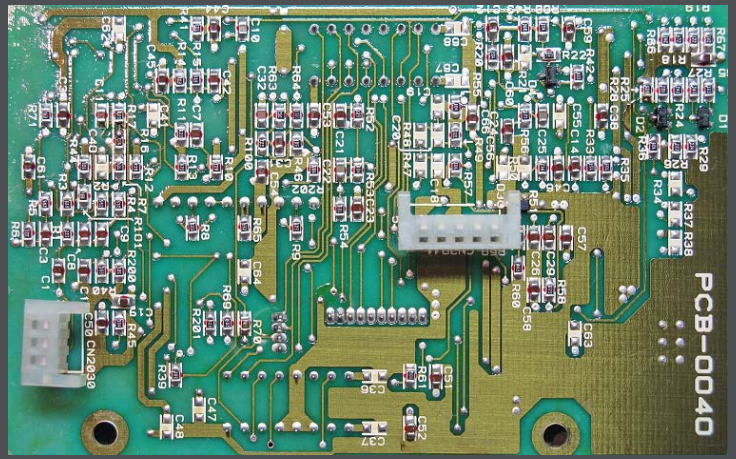
Digital components in Power Management

Arturo Fernandez, TEC-EPM

10/2018

ESA UNCLASSIFIED - For Official Use

A more general case... Integration

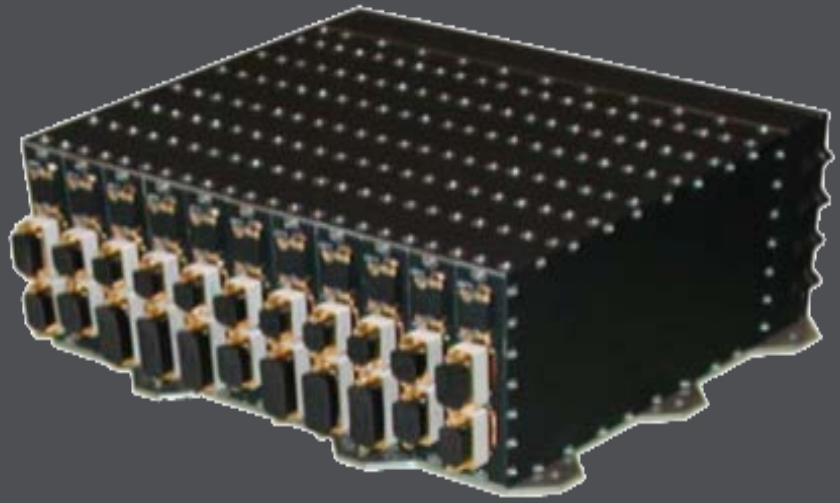


ESA UNCLASSIFIED - For Official Use

Specific case: Power management

Digital control

- Integration
- Local intelligence
- Complex control systems
- Efficiency



ESA UNCLASSIFIED - For Official Use

Need of small FPGA – Not trendy ☹

Small and cheap FPGAs with :

- ADCs
- PWMs

ESA UNCLASSIFIED - For Official Use

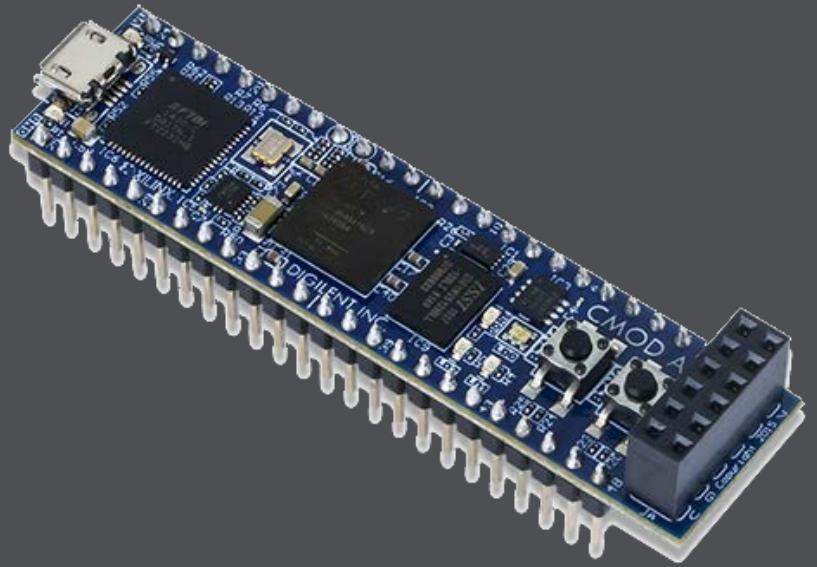
COTS FPGA available

512KB SRAM

48-pin DIP connector

44 Digital I/O

2 Analog inputs (0-3.3V)

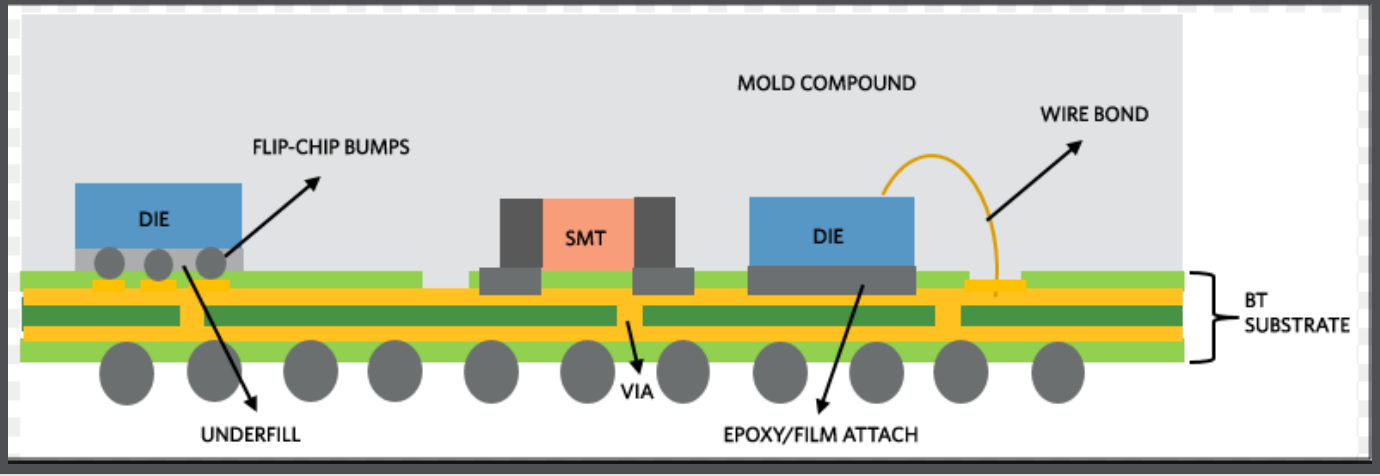


ESA UNCLASSIFIED - For Official Use

Rad Hard in Plastic package?

BGA plastic package

PCB with multiple Rad Hard chips



ESA UNCLASSIFIED -
