Portability, Reproducibility and Exception Handling of Control Software on Host and Target Platforms

- *Budget:* 50 kEUR

- *Duration:* 12 month

- *Prime:* GTD GmbH (DE)

- *Main Objectives:*

  1. Investigate the issues around Portability, reproducibility and exception handling of control software on host (x86-64) and target (Sparc V8, ARM) platforms;

  2. Provide guidelines in particular to support the debugging and analysis in operational projects;
