# Infrastructure for a Static Analysis Framework (SAFe)

- *Budget:* 48K + 17K (CCN)
- *Duration:* 6 + 3 months
- *Prime:* Spazio IT
- *Main Objectives:*
  1. Analyse and collect latest Open-Source Static Analysers;
  2. Design and develop a Static Analysis Framework using them;
  3. Document and package the framework in a Virtual Machine
  4. 3 month CCN: Add Java support (*e.g. Ground-segment code*)
