On Fusion

What is *Fusion*?

“A nuclear reaction in which atomic nuclei of low atomic number fuse to form a heavier nucleus with the release of energy.”

Oxford dictionary

What is *Fusion*?

“Referring to food or cooking which incorporates elements of both Eastern and Western cuisine.”

Oxford dictionary

<https://www.pinterest.co.uk/pin/452330356296671351>

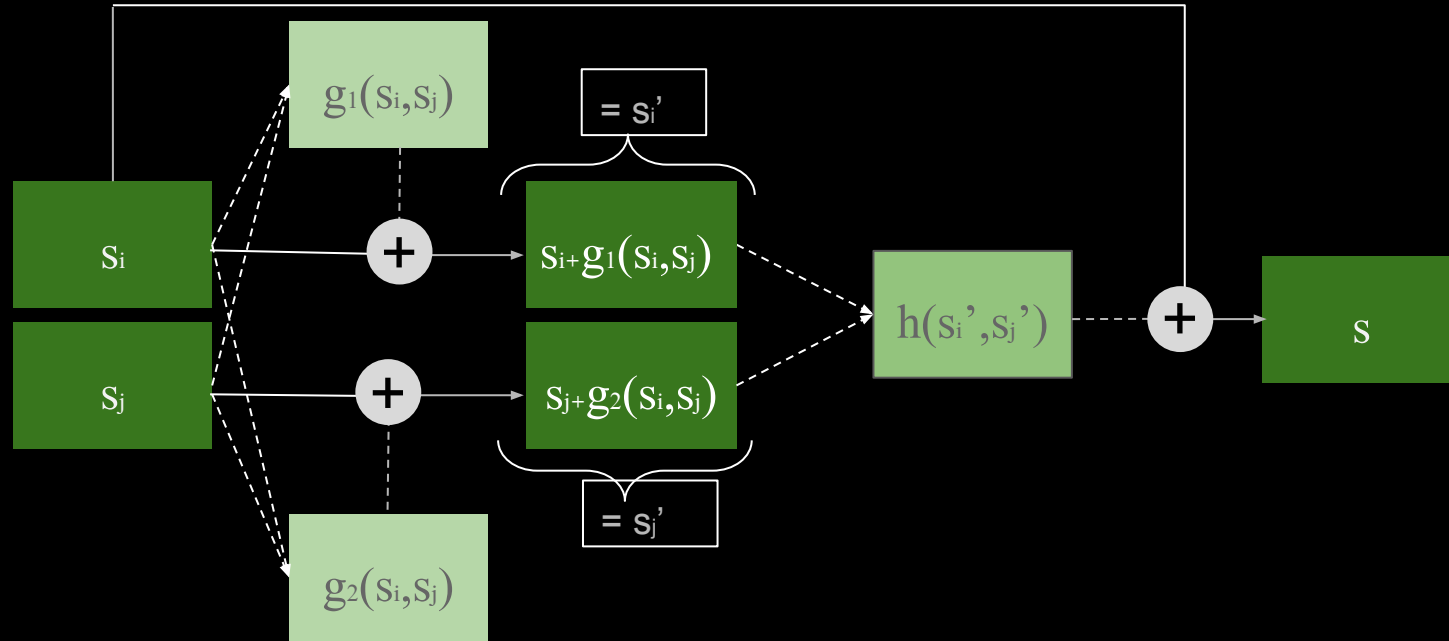

What is *Fusion*?

*“the process or result of **joining two or more [representations]** together to form a **[new representation]**”*

Oxford dictionary

Fusion - under the hood

Fusion - under the hood

Fused *representation* contains
more information
than individual *representations*

Recursive Fusion

Low-memory & **fast** fusion, by design

- Fusion in LR space
- $O(\log_2 k)$ fusion layers
- $O(k)$ fusions

Registration matters!

Implicit co-registration

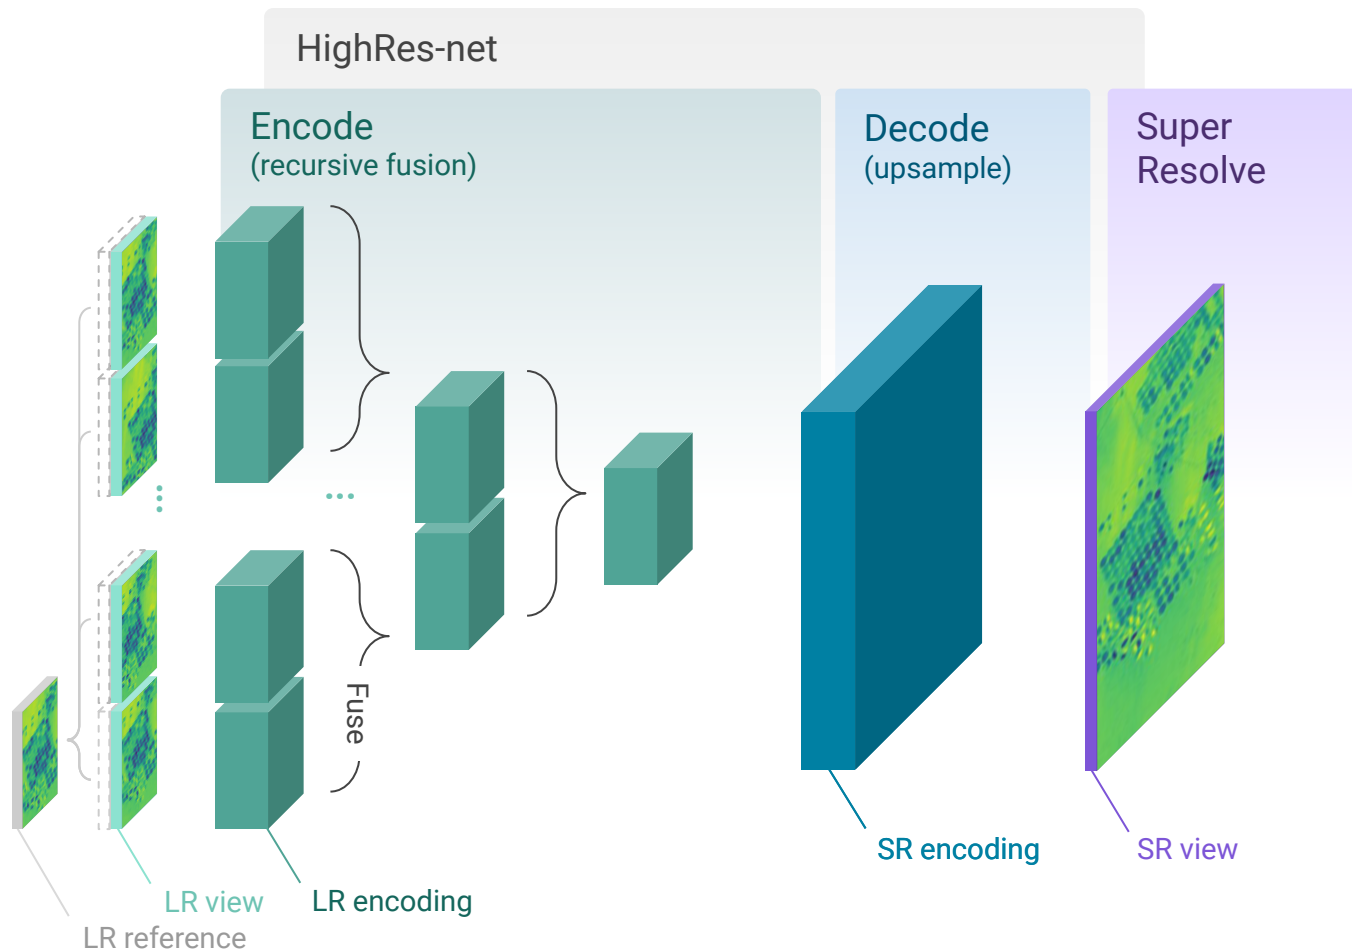

Co-registration

Ablation study - choice of **reference frame**

Reference	train score	test score
None (no co-registration)	1.0131	1.0088
Mean of 9 LRs	0.9636	0.9690
Median of 9 LRs (base)	0.9501	0.9532

Super-res

High-res

- ✓ Metal roofs or other unnatural colour (can be isolated or in groups)
- ✓ Linear or circular features that enclose other objects
- ✓ Shadow (darkness) from the linear or circular features
- ✓ Many similar features clustered together

✗ Round, sporadic features, not enclosed, sometimes green

Destroyed: missing roofs, smaller shadows

Freddie Kalaitzis

@alkalait

Super-resolution matters.

It can help to monitor human rights and the environment from space, so with Michel Deudon, Zhichao Lin, @JCornebise, partnered with @MILAMontreal to nail the @esa SR challenge.

We also wrote a blog.

#AIforGood @element_ai elementai.com/news/2019/comp...

Computer, enhance please!

We believe super-resolution technology has a pivotal role to play in solving important problems for society and the environment.
