

# SPACEMON: Space Environment Monitoring Workshop 2020

## Tuesday, 1 December 2020

### Magnetometers and Atomic Oxygen Detectors: MGAO - Einstein (11:20 - 12:50)

-Conveners: Piers Jiggins

time	[id] title	presenter
11:20	[11] Resistack: active detector for oxygen atomic	DUZELLIER, Sophie
11:40	[37] An Ion and Neutral Mass Spectrometer suitable for Atomic Oxygen measurements in Low Earth Orbit	KATARIA, Dhiren
12:00	[44] Discussion	
12:05	[1] Probing the interplanetary magnetic field in L1 on board LISA Pathfinder with platform magnetometers	CESARINI, Andrea
12:25	[51] SOSMAG lessons learned for future Space Weather Investigations	HILLENMAIER, Olaf
12:45	[45] Discussion
