AMICSA 2022

Thursday, 2 June 2022

**Implementation of Radiation Hardening on analogue circuits at cell-, circuit- and system- design level: Implementation
(10:00 - 10:55)**

time	[id] title	presenter
10:00	[20] Radiation Hardened DDR3 Physical Interface (PHY and IOs) in Flip-Chip C65SPACE Process	Mr BARAMILIS, Dimitrios
10:30	[11] First Silicon Enabling Rad-Hard Non-Volatile Memory in 22nm Technology for Space Applications	KAKOULIN, Michael
