

9th International Workshop on Radiation of High Temperature Gases for Space Missions

Wednesday, 14 September 2022

Facilities - Auditório (09:00 - 10:40)

-Conveners: Brett Cruden

time	[id] title	presenter
09:00	[81] Plasma Ball Formation: an experimental technique to test radiative models in non-equilibrium plasmas	COURRET, Gilles
09:20	[92] Temperature and electron number density measurements in the vki plasmatron ICP torch	Mr FAGNANI, Andrea
09:40	[127] Ultra-Highspeed Optical Emission Spectroscopy System for Hypersonic Impulse Test Facilities	LU, Nathan
10:00	[95] Infrared emission measurements of a recombining CO ₂ plasma	GRIMALDI, Corentin
