This is what we want

= __ II = __ == += II = __ > THE EUROPEAN SPACE AGENCY

We need:

Our research Advanced materials Artificial intelligence Bio-Engineering Biomimetics Complexity science Earth system sciences Energy systems Fundamental physics Habitats Informatics Mission analysis Nanophotonics Propulsion

Combine all researches into a system

Transfer the research into a TRL lift: Preparation, TDE, GSTP

All disciplines, experts, projects, to be aware of ACT research

- Dissemination
- Team works (RF associated to discipline experts)
- Awareness in ESA
