

IoT4EO 2023 Workshop (IoT for Earth Observation)

Thursday, 16 February 2023

Session 2: Earth Observation Upstream Users of IoT - Newton 2 (15:45 - 18:35)

time	[id] title	presenter
15:45	[11] SAR Data and IoT	VAURASTE, Tero
16:00	[16] Rapid & Resilient Crisis Response System Study	GIAMPAOLO, Donatella
16:15	[17] R3 Study: End-user is Everything!	ALEX, Vorobiev
16:30	[10] Optical Imagery and IoT	POZO, Kattia
16:45	[12] Meteorological Data and IoT	CAPPAERT, Jeroen
17:00	[18] PERSistent Satellite InterLink Service (PERSILS): Outcome of Definition phase and way forward.	WILHELM, Pierre
17:15	[19] Internet of Things in Space Networks	SCHENA, Vincenzo
17:30	[40] SAR Data for IoT	LENZ, Christian
17:45	[20] Realtime Wildfire Detection and IoT	LANGER, Martin
18:00	[8] Contribution of data-relay constellations to the UNSEENLABS service for Maritime Domain Awareness	RUILOBA, Rosario
18:15	[41] IoT Space Challenge: prototyping campus for fast innovation on EO and IoT	BURZYKOWSKA, Anna
