

# 8th International Workshop on Retrieval of Bio- & Geo-physical Parameters from SAR Data for Land Applications

**Friday, 17 November 2023**

**Ice and Snow I: TomoSAR and Bistatic applications (09:00 - 10:40)**

**-Conveners: Thomas Nagler; Helmut Rott**

time	[id] title	presenter
09:00	[68] SNOW PARAMETER RETRIEVAL BY SPACEBORNE MIMO FDM SAR TOMOGRAPHY	TEBALDINI, Stefano
09:20	[111] Snow Parameter Estimation by Simultaneous Multiple Squint Differential InSAR: A Study for the Harmony Mission	BENEDIKTER, Andreas
09:40	[64] On the Potential of Bistatic SAR Features for Monitoring Snow Facies over Ice Sheets and Radar Penetration Estimation	BECKER CAMPOS, Alexandre
10:00	[66] Monitoring Cryosphere Sub-Surfaces with BIOMASS mission	TAILLADE, Thibault
10:20	[95] Pol-InSAR and TomoSAR for Subsurface Ice Sheet Information Retrieval with a Perspective on BIOMASS	FISCHER, Georg
