

"you can eat"

"Osechi" boxes  
(New year cuisine  
Japanese tradition)

# SysML V2

## Language Complexity vs. Usability

Language Complexity  
Lingua Franca?!

OWN Language  
vs.  
Generic Language

SW-heavy  
background

Learning  
Curve

Underlying  
Object  
Model

Textual

VISUAL

Tool Vendor  
Strengths

Digital Threads  
+  
Tool Integration

Needed to be  
fitted to SE Tasks.

Decreases Learn C.  
- hands-on trainings  
- compl. to express

## Defined in a way to support the end users?

Transitions  
(Restart)

Real Interoperability  
needed

Maybe already  
outdated?  
w.r.t. upcoming ~~tech.~~ tech.  
e.g. AI

Evade  
Vendor lock-in

## Who should make the first step?

Customer-driven  
Enforced  
Usage

Corporate Tools  
not aligned  
with V2

Involve Academic  
and University  
to train students

Vendor investment?  
Pickup MBSE  
beyond Aircraft  
+ Spacecraft  
with space nuclear
