 5. Polarsys: An Example of Open Source Community including Governance 20'
 6. SOCIS - ESA Summer Code in Space for European Students 20'
 7. Panel Discussion
- ➔ Questions about 1) and 2) will be addressed in the Panel discussion

- What is your experience with software IPR management in relation with ESA? Does all the above make sense, or do you foresee potential issue?
→ Including questions about 1 and 2
- What is your approach to the OSS?
- How does it fit in your business model?
- How do you see the application of OSS to avionics? Embedded and/or tools? What would be the governance?
