

## ***ASRA Reporting***

*Presenters: Giorgio Magistrati (ESA) & Torbjörn Hult (RUAG)*

The ASRA activity has been completed: the two documents SAVOIR Functional Reference Architecture doc and the SAVOIR generic OBC specification have passed the internal review process and will enter into public review. The presentation will recall the main aspects of the proposed reference architecture for Avionics and the logic that has driven the requirements formulation of the SAVOIR generic OBC spec.
