

EU-ESA Workshop on Size Determination of Potentially Hazardous Near-Earth Objects

Tuesday 12 November 2024

Polarimetric observations - Rooms H.IV, H.V and H.VI (11:50 - 12:15)

time	[id] title	presenter
11:50	[14] The Calern Asteroid Polarimetric Survey version 2.0	BENDJOYA, Philippe

Polarimetric observations - Rooms H.IV, H.V and H.VI (16:50 - 17:40)

time	[id] title	presenter
16:50	[13] Study of near-Earth asteroids by polarimetric technique (REMOTE)	BELSKAYA, Irina
17:15	[28] Capability of the FoReRo2 instrument and the 2m RCC Telescope at the Bulgarian National Astronomical Observatory Rozhen for polarimetric observations of small solar system bodies	BORISOV, Galin Biserov

Wednesday 13 November 2024

Polarimetric observations - Rooms H.IV, H.V and H.VI (09:00 - 10:15)

time	[id] title	presenter
09:00	[26] Double Trouble: Polarimetric Insights into the Didymos- Dimorphos post-DART Evolution	GRAY, Zuri
09:25	[25] Polarimetry as a tool for physical characterization of potentially hazardous NEOs	DEVOGELE, Maxime
09:50	[15] Cross validation of albedo determination for 1627 Ivar from three different techniques	SELMi, Elena

Polarimetric observations - Rooms H.IV, H.V and H.VI (10:35 - 11:25)

time	[id] title	presenter
10:35	[6] Rapid-Defender: A New Polarimeter for Planetary Defense	FERNÁNDEZ-VALENZUELA, Estela
11:00	[21] Asteroid polarization at near-infrared wavelengths	MASIERO, Joseph
