

## Session Program

3-5 Feb 2026

# ESA Space Weather Service Network Workshop 2026

## Space Weather Service Infrastructure and Operations: Standardization and Inter-ESC Collaboration - part 1

ESOC  
Robert-Bosch-Strasse 5, 64293 Darmstadt, Germany

# Thursday 5 February

09:30

## Space Weather Service Infrastructure and Operations: Standardization and Inter-ESC Collaboration - part 1

Session | Location: ESOC, SWORD room (ESOC Press Centre)

09:30-09:31 **Introduction and overview**

**Speaker**

Dr KEIL, Ralf

09:31-09:45

### Lessons learnt in developing and integrating RB-FAN framework to ESA space weather ecosystem

**Speaker**

MAGET, Vincent

09:45-10:00 **On the usage of SPASE metadata and HAPI for model API's**

**Speaker**

Dr HEYNDERICKX, Daniel

10:00-10:15 **SPENVIS-5 in the NoM**

**Speaker**

MEZHOUD, Sami

10:15-10:30 **The new State-of-the-Art Space Weather Payload Data Centre at ESA**

**Speaker**

MAGYAR, Norbert

10:30-10:45 **Enhancing Space Weather Data Systems**

**Speaker**

DAVIES, Lewys

10:45-11:00 **Evolution of Space Weather Data Systems**

**Speaker**

MARSZK, Dominik

11:00
