

## **Introduction and Status of SAVOIR**

*K. Hjortnaes  
ESA/ESTEC*

The SAVOIR initiative will be presented, as stemming from the Harmonisation and gathering the avionics community to streamline the avionics procurement process. This includes the objectives of SAVOIR, the description of its ecosystem and the expected benefits for the stakeholders. The SAVOIR workplan will be presented, based on the production of reference architecture, generic specification, interface standards, prototypes and products.
