

9th INTERNATIONAL WORKSHOP ON RETRIEVAL OF BIO- & GEO- PHYSICAL PARAMETERS FROM SAR DATA FOR LAND APPLICATIONS

Wednesday 18 November 2026 - Friday 20 November 2026

Universitat Politècnica de Catalunya

Scientific Programme

The programme follows a similar setup compared to the earlier editions of BioGeoSAR. As such, contributions will be invited covering the following main themes, i.e. general land-use and classification, agriculture, soil and hydrology, forestry, ice and snow. For the overall programme description and details, please follow "Timetable" in the main menu.

General Land Applications

Soil and Hydrology

Ice and Snow

Agriculture

Forestry
