Session Program

18–20 Nov 2026

9th INTERNATIONAL WORKSHOP ON RETRIEVAL OF BIO- & GEO- PHYSICAL PARAMETERS FROM SAR DATA FOR LAND APPLICATIONS

General Land Applications II

Universitat Politecnica de Catalunya , Aula Master
Barcelona

Thursday 19 November

15:40

General Land Applications II

Session | **Location:** Universitat Politecnica de Catalunya , Aula Master, Barcelona

15:40–16:00

Digital Terrain Model Retrieval from BIOMASS P-Band Tomographic Data: Processing and Validation

Speaker
NAOMI PETRUSHEVSKY

16:00–16:20

Quad-Polarimetric SAR Reconstruction from Reduced-Polarimetric Observations under L- & P band dataset

Speaker
Jiachen Li

16:20–16:40

Estimation of the Polarimetric Orientation Angle in Dense Tropical Forest using BIOMASS Data

Speaker
Titouan Tyack

16:40–17:00

Mapping inundation dynamics in forested wetlands by PALSAR-2 ScanSAR

Speaker
Jessica Rosenqvist

17:00
