

Session Program

3-5 Nov 2026

EU-ESA Workshop on Meteor Observations for Planetary Defence

Space-based fireball detection and calibration

Petralia Sottana, Sicily
SP29, 90027 Petralia Sottana PA

Tuesday 3 November

11:00

Space-based fireball detection and calibration: Space-based fireball detection and calibration

Session | **Location:** Petralia Sottana, Sicily, SP29, 90027 Petralia Sottana PA

11:00–11:25

Automated fireball detection and characterisation from space with MTG-LI

Speaker

Niels Rubbrecht

11:25–11:50

Fireballs in the lightning: Geostationary satellites as calibrated planetary-defence sensors

Speaker

Simon Anghel

11:50–12:30

Open discussions

12:30
