Partnering for Customer Success

Antycip Simulation Core Competencies

Enabling Technology Provider for Realtime Simulation and Training solutions:

Source Data Provision

Modelling and Terrain Generation

Visualisation and Sensors

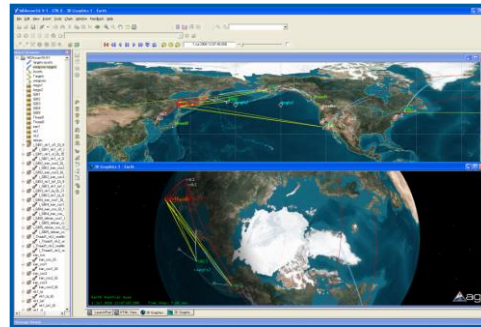

Physics

Communications

HMI / MMI Instrumentation

Analysis

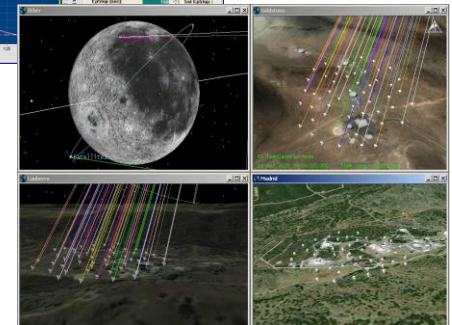

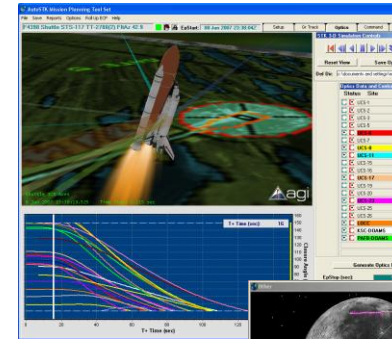

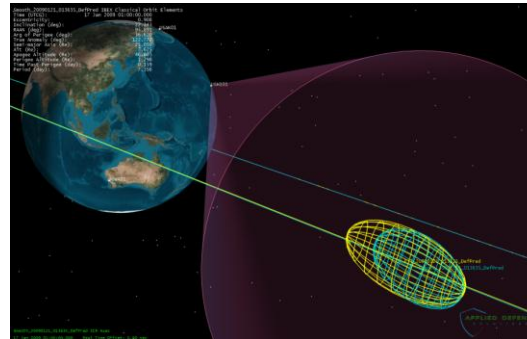

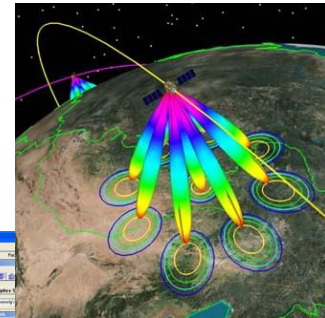

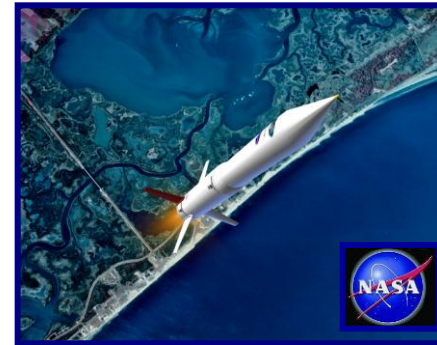

Integrated Projection and Display Solutions

STK – Systems Toolkit - AGI

Dynamic Systems Analysis / Visualisation
Mission planning / Space Exploration
Space Situational Awareness (SSA)
Orbit Determination
Conjunction Analysis
Operations Analysis
Navigational Accuracy

**Communications Analysis – Links to
QualNet / Exata CES.**

GL Studio – HMI / MMI Toolkit - DISTI

Core Competencies:

Instrumentation Prototyping and Design

Simulation and Training (CBT)

Virtual Maintenance Trainers (VMT)

Embedded Systems

Safety Critical Embedded Systems

Courseware and Distributed E-Learning

Solutions

Vortex Pro – Physics Engine – CM Labs

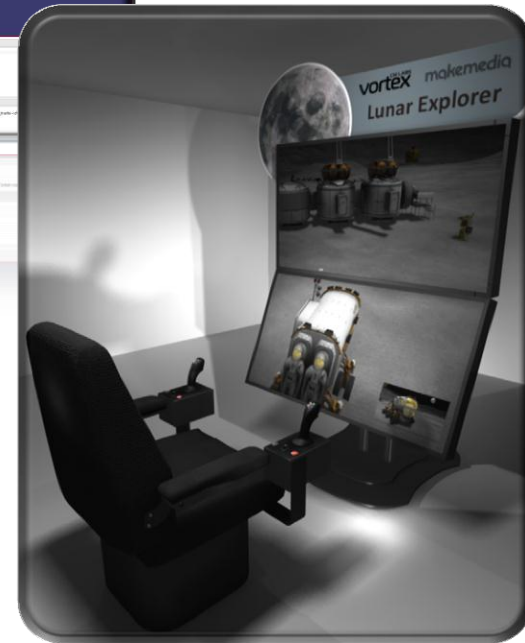

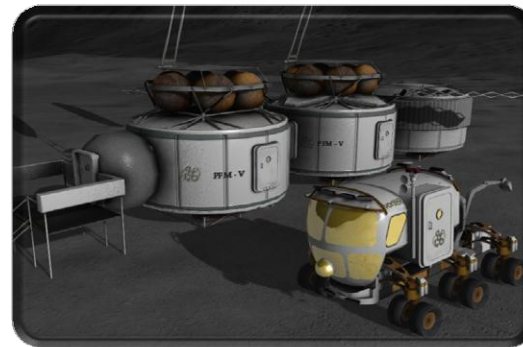

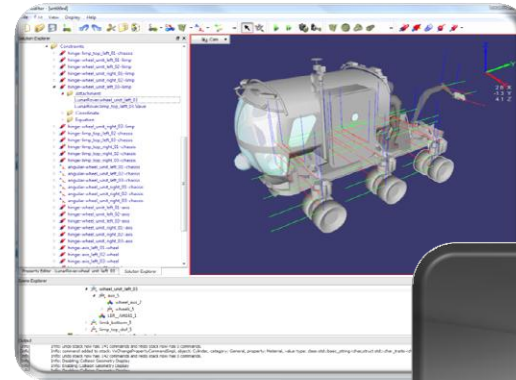

Core Competencies:

HF Newtonian Physics Engine

Vehicle Prototyping and Design
Operation and Mission Planning Simulation
Training Systems

Heavy Lift Equipment Trainers
ROV Trainers

Integrated Projection and Display
